WHERE IT GOES
This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut 900 x 400; drill six 9 dia holes 169 each side of the centre line, at 50, 450 and 850 from the door end, to the rails

Drill and tap four M8 holes for the stand base: 140 and 400 from the deck's door-end edge, 80 each side of the centre line

The deck bolts onto the rails' top legs with M8 bolts and nuts

Check: deck slides in through the door opening and sits flat

AltiRig deck plate
