WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut a 790 dia disc from perforated sheet (10 mm holes at 12 mm staggered pitch); file any half holes at the rim smooth
Drill four 9 dia holes at 45, 135, 225 and 315 deg on a 764 circle to match the tabs; fit them where the solid edge allows
Bolt to the tabs with M8 bolts, nuts and washers
The baffle comes out for the comparison runs without it
Check: 5 mm gap to the wall all round

ALTIRIG
