Scale 1:2; looking at the front (along +Y)

RIGHT VIEW

Scale 1:2; looking at the right side (along -X)

WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Anchor: 30 x 40 x 58 block; two M5 tapped holes up into the base plate side, two M5 through on its back face for the cell

Hanger: 27 x 40 x 62 block; two M5 tapped holes in its top to the carriage, two M5 through its front face for the cell

The load cell stands upright between them: its lower end bolts to the anchor, its upper end to the hanger

Check: the cell hangs plumb and touches nothing between its ends

ALTIRIG
